Dear FCC Members,

I would like to strongly urge you to reject the NAB's petition 04-160 regarding the limiting of content on XM Radio. I along with millions of our XM listeners depend on the up to the minute traffic and weather reports as we travel across the great and free country of ours. I would also urge you to support XM Satellite radio's ability to continue to provide the kind of programming the public and listeners desire and deserve.

Thank you for your consideration of this important matter.

Kenneth Merrill
